

HEBA ISMAIL

***CANDIDATE FOR
AUSSS-AINSHAMS
PRESIDENT 24-25***

“‘WHAT’ AND ‘IF’ ARE TWO WORDS AS NON THREATNING AS WORDS CAN BE, BUT PUT THEM TOGETHER SIDE BY SIDE AND THEY HAVE THE POWER TO HAUNT YOU FOR THE REST OF YOUR LIFE. WHAT IF?”

MOTIVATION LETTER

MOTIVATION LETTER

Dearest green family,

I wish I could say that I hope this letter finds you well, but at this precise moment, I cannot. Not a few hours ago, our people were burned alive in Gaza. And as I sit here, writing this, I cannot help but feel helpless.

When I first joined med school, almost exactly four years ago, I was terrified of what it entailed. My whole life I have been subconsciously groomed into this. A doctor to be. Until the day came in which I discovered I cannot be anything else. I sat there writing my preferences and realised I do not, in fact, know if this is truly the career I want for myself. I promised myself I won't let med school be my whole life, I was scared it would be all I will ever be, and so I decided to join all the extracurriculars I could find, and here I am, four years later. Choosing this. This is the place I want to help expand. This is the place I want to give to, because for the past four years, the work we have been doing has been giving me hope.

I cannot currently go to Gaza and save lives, and I do not know if I will be able to do that in the future. What I can do, is speak about it, raise funds, scream out into the world about the unfairness of it all. AUSSS is that space for me, as it is for all of you. This unique place joined us all in a cocooned community, where we keep each other safe, and that encourages us to do what we are most passionate about. AUSSS let me be a photographer, a writer, a speaker, an advocate, an event planner, a project manager, it even gave me an underpaid (ops not paid) 9-5 job; except, well, the hours are not that strict. In short, I will never be just a doctor, and for that I will never stop being grateful.

My experience in IFMSA cannot be summed up in one role or one committee. From logistics team (I know, what *is* that?) to the Trainers Pool Advisory Board, I left nothing untouched, my first campaign was in SCORA, my first debate in SCOME, my first workshop in exchange, my first physical campaign in SCOPH, I learned most from SCORP, I handled the online pages, I took part in OCs locally and nationally, I helped in outgoing campaigns and I have welcomed our incomings. I found my place in the CBSD and internal development, and I stayed. I tried everything, all to prepare for this very moment.

This past year has been unusual for me in IFMSA, I had to step away locally and the beauty of the work that I loved left me. This feeling you get in AUSSS? You do not get it anywhere else. At some point, the friends I made here became the friends I want to keep for life, and the work we do? The posts, the physical campaigns, the sessions, the toolkits, the magazines, the check-ins, the community, they are all things I will fondly look back to. However, we have much to do. This last year with IFMSA-Egypt on hiatus, we were grounded. It set us back and it should never have been this way.

We lost sight of what truly mattered, and our passion? we lost it. I got to see so many new people get engaged with new ideas, new possibilities and the world seemed so much brighter, but the members who were already here? Who gave this LC so much of their time and wit have burnt out.

I want to be president to set balance. Reengage the OGs, because I was once engaged because of them. I am still here because of the support of those around me. Those who stood by me and taught me, and as we start this new year, we want new people, new ideas, but we also need a reason, a place for them to want to stay. The work we do is amazing, but it takes a toll. Because as much as we say we make change, it is a tediously slow process, and when someone forgets, we need a strong community to remind them why we are all here. I want us to have a strong base, to have every current member of AUSSS ready and willing to give their best so we can inspire newly recruited members to do the same.

I will not lie to you and tell you it is all sunshine and rainbows. The world is a cruel place. Nonetheless, I can promise to fight with you, hold your hand and wipe your frustrated tears, because I get it. We are here because we want something more, and I will do my very best to ensure that AUSSS is the space where you become your something more, always. Hand in hand, with our joint experiences, we will make this world a better place.

Stay passionate,

Heba Ismail.

CURRICULUM VITAE

HEBA ISMAIL

🌐 YEAR 4/5
📍 CAIRO

✉️ hebaismail502@gmail.com
☎️ +201145387825

EDUCATION

2020-current Bachelor of Medicine And Surgery
Ain Shams University, Cairo, Egypt.

2017-2020 IGCSE STUDENT at Manarat
Alfarouk school.

LANGUAGES

Arabic (Native)

PLAN OF ACTION

Where a POA is concerned, I believe that the key is flexibility and creativity; both of which can be provided throughout the term with proper communication and use of resources.

PLAN OF ACTION

PILLAR 1: PROCEDURES & MEMBERS' ENGAGEMENT

I-Executive Board

- Receive a proper handover with all aspects of the LC as soon as possible after elections; including local, national and international standing points.
- Ensure a healthy productive environment for all EB members in which they are consistently updated with the happenings of the LC and involved in the decision-making.
- Ensure proper communication with all EB members, officially via an email thread and unofficially via a whatsapp group.
- Discuss AWP's and term expectations with all EB members at the start of the term.
- Finish updating the BCPs and COC and adopt them in the mid-term GA.
- Together with the TO, create a strategic plan 25-28 to focus our efforts toward a shared vision.
- Ensure our LC efforts directly contribute to the national and regional priorities.
- Continue our efforts to finish establishing our mental health watch.
- Discuss the possibilities of hosting a league of workshops or a national general assembly.

PLAN OF ACTION

II-Team of Officials

- Establish an EB/TO Buddy system in which every officer/director will have direct communication with an EB member; in case said EB member is temporarily unavailable, the official/director can contact the president directly to ensure speedy handling of all LC matters.
- Ensure all TO members receive adequate handovers from their predecessors.
- Have one-on-one meetings with all officers/directors to discuss term expectations and annual working plans.
- Assist the TO with local team selections.
- Conduct at least one TO outing per month.
- Conduct monthly TOMs until the end of term.
- Prepare budget plans for SC/SD activities.

PLAN OF ACTION

III-Members

- Be present in all AUSSS-Ainshams activities to be there for the members.
- Work with the sec-gen to make sure that all members new and old are added to the email server as it is our official means of communication.
- Share all relevant opportunities on the official server.
- Create a private facebook group for all members to join and share opportunities in it to ease up communication as many members expressed difficulty in finding opportunities on the server and/or not being on the server.
- Provide the Faculty with all needed data after the elections to get the recruitment approval early in the term.
- Organise a one-week recruitment campaign for both mainstream and EMP students.
- Conduct an orientation general assembly for new members before the new year.
- Conduct at least one Members Engagement outing per month.
- With the sec-gen, combine a list of all members and their membership status.
- Encourage members to apply to national and international opportunities and assist them, when needed.

PLAN OF ACTION

III-Members

- Provide whatever support needed to our national and international representatives.
- Encourage members to study in a supportive environment by allocating weekly AUSSS Study Hours whether physical or online and begin the Crash Dash Tutoring Facebook Group.
- Organise a monthly team-building activity; Paintball wars, painting, movie nights, game nights, etc.
- Start the AUSSS Podcast.
- Have a recreational general assembly (aka trip).
- Organise a reward points system for members to encourage participation.

PLAN OF ACTION

PILLAR 2: CAPACITY BUILDING

Work with the VPI and CBSDD to:

- Organise a TO Competency Module directly after the elections to equip the new TO with all the skills needed to adequately serve in their term. Sessions can include AWP writing, team leadership, time management and any other skills gathered by a needs assessment.
- Organise a combined local teams Competency Module right after selections, fostering inter-committee communication and learning; focusing on the soft and hard skills they would need during their terms. Afterwards, work with the respective officer/director on specialised sessions for their teams.
- Work with the CBSDD, to ensure the continuation of the AUSSS Magazine.
- Conduct at least one workshop related to each SC/SD.
- Ensure the continuation/creation of at least one project in each SC/SD to be conducted every term. For example: the Ramadan Activity in SCOPH, and the Suturing workshop in SCOME.

PLAN OF ACTION

PILLAR 3: FINANCES AND LOCAL GENERAL ASSEMBLIES

- Work with the VPF and sec-gen to create a financial plan for the term.
- Create monthly financial reports and ensure financial transparency with all relevant parties.
- Ensure efficient bookkeeping.
- Work on fundraising campaigns with the VPF.
- Select mid-term LGA Head of OC with Local teams call.
- Create an OC Toolkit for local GAs.

PILLAR 4: FACULTY RELATIONS

- Meet with relevant faculty officials to introduce the new team in charge and discuss expectations and possible collaborations.
- Discuss fundraising for hospital equipment needed in daily examinations as reported by house officers and residents; such as pediatric cannulas and cuffs.
- Propose the Green Walk to clean the hospital grounds.
- Propose the Career's Conference with head of departments.
- Organise monthly blood donations.
- Negotiate the possibility of having an on-campus office.

PLAN OF ACTION

PILLAR 5: EXCHANGES

- Work with the LEO/LORE to ensure visibility of our exchange program in the recruitment campaign.
- Conduct the outgoings process as early as possible.
- Update our agreements with Ainshans Specialised (Altakhasosy) Hospital for a new incoming hosting season.
- Recruit new contact persons and conduct a CP training.
- Provide the LEO/LOREs with an exchange budget for needed endeavors.
- Create an outgoing and incoming manual documenting the experiences of previous exchangees to facilitate the exchange process for future generations.

PLAN OF ACTION

PILLAR 6: EXTERNALS AND REPRESENTATION

- With the VPE, revise and update previous external relationships and organise meetings to discuss new term expectations.
- Conduct a new stakeholder mapping.
- Organise a calendar agenda for all collaborations of the term in the beginning of the year.
- Update corporate identity and launch it.
- Reactivate the Plasma Donation Initiative.

PILLAR 7: DOCUMENTATION AND SUSTAINABILITY

- Work with the sec-gen to document membership upgrades, LGA and NGA attendances.
- Work with the PSDD to document all activities and enrol them nationally.
- Work with the CBSDD to continuously update the Central Hub and the AUSSS Trainers Pool.
- Ensure the continuation of at least one project in each SC/SD.

I saw this LC go from 10 members attending an NGA to 50 members. Most of us here saw this change first hand. With multiple international representations, national representations and external representations, AUSSS-Ainshams was always leading. And it is because of YOU, the members. We had many setbacks, emotions, entanglements, but we never lost sight of the impact we perform. Yes, we may be a little late this year. Nonetheless, we are all still here because we want to keep this place that gave us so much. I can promise you that I will be there to help each and every one of you. I want to listen to your dreams, your fears, your ideas. Because *you* make up AUSSS. For our LC to grow, we start from the beginning; good old capacity building and members engagement. *We listen.*

THANK YOU!
