Motivation Letter

Dear AUSSS Family,

When anyone asks me what is home, I simply say look no further than AUSSS-Ain Shams. The green family took me by the hand away from the books into the world of advocacy and gave me purpose in life, and it felt like home. They encouraged me, pushed me forward, and nurtured me back when I was just a local SCOPH member. They guided me to the SMART workshop where it all started for me. They shaped me into the reliable local PSDD that was able to stand out to the national projects team. They comforted me as I nervously submitted my application to be a national team member, with thoughts of making my family proud consuming me. During my time in the national team, they served as a warm hug whenever I needed it and made sure that I never felt alone. When the time came for me to be elected as National PSDD, I looked for my family in the crowd because nothing else mattered. Their cheers for me with every report, their protectiveness over me, and their overwhelming support is what got me through the darkest periods. They always saved me a seat with them even when my TO duties took me away. This candidature represents me providing to the family that gave me so much that I cannot repay them in 50 timelines. I grew, I learned, and I will use all this experience to enrich AUSSS. That is because there are countless more people like me who will undergo this journey under the gentle guidance of the green family. I will do whatever it takes to maintain this place in the best way I can serve it.
